Re: Section 104(e) Request for Information  
Bayonne Barrel & Drum Superfund Site  
150-154 Raymond Blvd., Newark, NJ (Essex County)

Dear Mr. Cosentino:

This letter will supplement my December 11, 1995 response to your letter of November 14, 1995. As previously stated, we have continued to research our data in an attempt to more fully respond to your request. While we still cannot provide complete responses to your requests, from our analysis, we can make some general statements.

1. Our manifest records indicate that from 1984 forward we have utilized the "generator names" Borg-Warner Air Conditioning, Inc. or York International Corporation. Prior to 1984, we utilized Borg-Warner as the "generator name". It appears that all manifests in our possession prior to 1984, save for one, utilized Borg-Warner as the "generator name". The one exception was a New Jersey manifest in the name of York Division of Borg-Warner during the fourth quarter of 1981, but that shipment did not contain any trichlorethane. It also appears that, as part of the waste shipments, a bill of lading accompanied the manifest. Those bills of lading were pre-printed forms with York Division of Borg-Warner on them.

2. All of the manifests prior to 1984 utilized a Maryland manifest form. Those manifests are designated by a five digit number preceded by an alpha character "B". There were no Pennsylvania manifests with the "PAB" designation until 1984.

We will continue to supplement these responses as information becomes available. If EPA can provide additional data to assist us in our efforts, it would be greatly appreciated.

Best regards,

Frank J. Ullmann  
Counsel
